This Month at Snehdhara: Reaching Further, Impacting More

This month, **Snehdhara** conducted 8 outreach initiatives, impacting **2,500+** lives across communities. From newborns and elderly residents to industrial workers, women, and rural children, our efforts balanced immediate relief with long-term empowerment. Each initiative addressed a real need – nutrition, healthcare, warmth, hygiene, and education – ensuring that support reached those who need it most.

While our on-ground drives continued across **Gurgaon**, we also expanded our educational initiative, **SnehPathshala**, into more rural areas of **Jharkhand**. This month reflected both compassion in action and commitment to sustainable change.

BABY KIT DISTRIBUTION

Civil Hospital, Sector 10

We distributed **baby kits** to new mothers at **Civil Hospital**, helping families care for their newborns with essential supplies. These kits reduce immediate financial pressure and support safer, healthier beginnings.

By stepping in at a **critical moment**, we ensure that mothers feel supported and prepared during the early days of **parenthood**.

ANANDASHRAM

Monthly Outreach

Our monthly outreach at **Anandashram** ensured elderly residents received essential supplies and continued care. Regular visits strengthen trust and provide stability.

Beyond materials, our presence offers reassurance - reminding residents that they are valued and not alone.

SANITARY PADS

Distribution Drive

We distributed **sanitary pads** to support menstrual hygiene and **women's health**. Access to these essentials directly impacts comfort, confidence, and well-being.

This drive continues our effort to address basic but often overlooked needs with **dignity**.

WINTER RESOURCES DISTRIBUTION

Society Guards

Security guards working long hours in the cold received winter essentials to help them stay protected. **Warmth is not a luxury - it is a necessity.**

By **supporting** those who safeguard our communities, we extend **care** to an often unseen workforce.

FIXED MEAL PROGRAM

Industrial Area, Sector 48

Our fixed **bhandara** continued in the industrial area, providing dependable meals to daily wage workers and underserved individuals.

Consistency in food support creates **stability**. For many, this meal is a reliable source of nourishment each week.

SNEHPATHSHALA EXPANSION

Rural Jharkhand

Education access remains limited in many rural villages. This month, **SnehPathshala** expanded to **Garu and Gloria, Budmu, Barubeda, Mundari, and Salhan**, all near Ranchi, Jharkhand.

Beyond materials, our presence offers reassurance – reminding residents that they are valued and not alone.
